Non-Member
Vendor - \$40

ABOUT SAMSON ELSBERND: Samson is a key member of Wilke Fleury's talented and experienced Labor and Employment team. His dedication to ensuring clients understand their options to minimize risk is facilitated by his comprehensive knowledge of California employment law.

In this month's presentation, Samson will discuss recently enacted laws for 2019, especially in response to the #MeToo and similar movements. Some of the new laws include:

- Mandated sexual harassment training for non-supervisory employees;
- Increased coverage for supervisor sexual harassment training;
- Expanded liability for the harassing conduct of non-employees;
- Additional privileges for sexual harassment-related communications;
- New guidance for the use and dissemination of salary information to applicants and current employees; and
- Confidentiality restrictions and other limitations for settlement agreements and employee releases.
